Who We Are

Keystone Project Group is a trusted name in the construction and remedial building industry, known for delivering high-quality, sustainable, and cost-effective solutions. We specialize in remedial construction, structural reinforcement, and asset maintenance for residential, commercial, and strata-managed properties. With a strong foundation built on integrity, innovation, and technical expertise, our team is committed to restoring and enhancing the longevity of built environments.

At Keystone Project Group, we bring together a highly skilled workforce, advanced construction methodologies, and strict compliance with industry regulations to ensure superior project outcomes. Our expertise spans structural rectification, waterproofing, concrete repairs, and asset preservation, ensuring that every project we undertake is delivered to the highest standards of quality and safety.

Our mission is simple: to provide innovative and reliable remedial solutions that safeguard the structural integrity and value of properties. Through our collaborative approach and commitment to excellence, we continue to set new benchmarks in remedial construction.

Core Values

Our core values define our approach to construction and remedial work.

✓ Integrity

We uphold the highest standards of honesty and professionalism in all our dealings. Every decision we make is guided by transparency, ensuring trust and confidence among our clients and stakeholders.

✓ Collaboration

Keystone Project Group fosters strong partnerships with strata managers, developers, builders, and property owners to achieve shared project goals. We liaise closely with registered design practitioners, engineers, and consultants to ensure compliance with the Design and Building Practitioners Act 2020 and deliver projects that meet stringent industry standards.

✓ Excellence

We are committed to delivering exceptional results through superior workmanship, advanced techniques, and stringent quality control processes. Our team is continuously trained to stay ahead of industry advancements, ensuring that we provide innovative and effective solutions.

✓ Safety

Our safety-first approach is embedded in every aspect of our work. We adhere to ISO 45001-certified Occupational Health and Safety Management Systems, ensuring a hazard-free environment for employees, clients, and the public.

✓ Sustainability

Environmental responsibility is at the core of our operations. We follow ISO 14001 Environmental Management Standards, incorporating eco-friendly materials, waste reduction strategies, and sustainable construction practices to minimize our environmental footprint.

Services

Keystone Project Group offers a comprehensive range of remedial and structural repair solutions tailored to enhance the longevity and performance of buildings.

Expertise

✓ Structural Reinforcement of Columns

We specialize in strengthening and reinforcing structural columns to restore their load-bearing capacity and stability. Our expertise includes the installation of steel reinforcement, carbon fiber wrapping, and epoxy injection techniques to prolong structural integrity.

✓ Post-Tension Truncation Solutions

We provide expert post-tension cable repair and truncation solutions, ensuring safe and compliant modifications to existing concrete structures while maintaining their strength and functionality.

✓ Injection for Structural Cracks

Our precision injection techniques effectively seal and repair structural cracks, preventing water ingress and restoring the integrity of concrete elements. We use epoxy, polyurethane, and cementitious grouts, depending on the specific project requirements.

Expertise

✓ Concrete Spalling Solutions

Concrete spalling is a common issue caused by corrosion of embedded reinforcement, leading to cracks and material deterioration. Our team implements patch repairs, anti-corrosion coatings, and structural strengthening to prevent further damage and enhance durability.

✓ Waterproofing Solutions

We offer advanced waterproofing services to protect structures from water infiltration and moisture damage. Our solutions include membrane applications, liquid sealants, negative-side waterproofing, and drainage improvements, tailored to residential, commercial, and industrial properties.

Why Do Clients Choose Keystone?

Clients trust Keystone Project Group because of our proven track record, technical expertise, and commitment to excellence. We offer a seamless and professional experience, ensuring that every project meets the highest industry standards.

✓ Experience & Expertise

With years of experience in remedial construction and structural repair, we bring deep technical knowledge and problem-solving skills to every project. Our team comprises skilled professionals who specialize in structural reinforcement, waterproofing, concrete repairs, and asset remediation.

✓ Comprehensive Service Offering

We provide end-to-end remedial solutions, covering everything from initial assessment and engineering consultation to execution and compliance certification. Our multi-disciplinary approach ensures that we deliver long-lasting, compliant, and cost-effective solutions for all types of structures.

✓ Guaranteed Quality & Long-Term Results

We take pride in delivering high-quality, long-lasting remedial solutions. Our use of premium materials, advanced methodologies, and strict quality control measures ensures that every project stands the test of time. We also provide comprehensive warranties to give our clients peace of mind.

✓ Collaboration with Key Stakeholders

We work in close collaboration with strata managers, property developers, builders, and registered design practitioners to ensure that all projects comply with NSW's Design and Building Practitioners Act 2020. Our proactive communication and strategic planning help stakeholders navigate complex building regulations and achieve optimal outcomes.

✓ Safety & Compliance

Safety is at the forefront of everything we do. As an ISO 45001-certified company, we prioritize workplace safety and adhere to strict WHS (Work Health and Safety) regulations to protect workers, residents, and the broader community.

✓ Cost-Effective & Tailored Solutions

We understand that every project has unique financial and structural requirements. Our team works closely with clients to develop tailored remedial solutions that balance quality, performance, and budget. We implement efficient project management strategies to minimize costs without compromising on durability or safety.

✓ Sustainable & Environmentally Responsible Practices

Keystone Project Group is committed to reducing the environmental impact of construction. Our adherence to ISO 14001 Environmental Management Systems ensures that we use sustainable materials, waste reduction strategies, and eco-friendly construction methods.

Certifications and Compliance

Certificate of Registration

Section 45(1) of the *Design and Building Practitioners Act 2020*

Registration number:	BUP0004334
Issued to:	Keystone Project Group Pty Ltd
Approved Class(es):	Body Corporate
Issue date:	01/08/2024
Expiry date: (unless surrendered or cancelled)	31/07/2025

Building Practitioner Registration

“The holder of this certificate is granted registration in their prescribed occupation under the section 45(1) of the Design and Building Practitioners Act 2020. The registration will continue until the date of expiry stated above. Building Commission NSW may reinstate any cancelled or suspended registration or waive any such condition if it thinks it appropriate in the circumstances. If any of your circumstances change or you become aware of certain events as outlined in clause 46 of the Design and Building Practitioners Regulation 2021, you must notify Building Commission NSW within 7 days after becoming aware of the event.”

Keystone Project Group operates with a commitment to excellence, certified under:

- ISO 14001: Environmental Management Systems
- ISO 45001: Occupational Health and Safety Management Systems
- ISO 9001: Quality Management Systems

Our compliance with these standards underscores our dedication to quality, safety, and environmental stewardship.

Workplace Safety

Keystone Project Group prioritizes safety across all operations. Our systems align with ISO 45001 to ensure a hazard-free work environment for employees, clients, and the public

Sustainability Practices

- Adherence to ISO 14001 standards for environmental responsibility.
- Implementation of waste reduction and recycling programs.
- Use of sustainable materials and technologies to minimize ecological impact.

HEALTH, SAFETY, ENVIRONMENTAL & QUALITY POLICY

This policy applies to all employees, contractors, and other people at workplaces managed by Keystone Project Group.

Our Commitment

Keystone Project Group and its senior management are committed to:

- Protecting the health, safety and wellbeing of everyone within our workplaces including employees, contractors, visitors, public, neighbours and the community.
- Ensuring that our activities place minimal impact on the environment including pollution.
- Delivering projects that add economic, social and environmental value to our clients, our community and those who invest in us.

Our Strategies

Keystone Project Group works collaboratively with key stakeholders, including our clients, regulators, industry peers, suppliers and contractors, to exceed our legal, contractual and other compliance obligations through the following key strategies:

- Managing risks and opportunities through early intervention in planning and design.
- Monitoring constantly the changing landscape over the project lifecycle and develop rigorous controls in response.
- Creating an outlook and culture in which our commitments are front of mind and part of everyday business.
- Valuing the competency (skills, knowledge and experience) of all persons to perform and find better ways of doing the work.
- Providing employees and other stakeholders the opportunity and expectation to acquire the appropriate competency to enable them to carry out their work safely without risk to themselves, fellow workers and the public.
- Focusing on open conversations between our employees, our clients and the people we work with not just paperwork.
- Creating a culture that encourages the reporting of incidents and occurrences to enable knowledge sharing, learning and information to facilitate improvements in performance.
- Promoting strategies that are driven and embedded by senior management who encourage ownership and continuous improvement in behaviours, practices and outcomes by all persons.
- Aligning our behaviour to our values with an emphasis on teamwork and recognition for innovation and initiative.

COMMUNICATION & CONSULTATION POLICY

This policy applies to all employees, contractors, and other people at workplaces managed by Keystone Project Group.

Our Commitment

At Keystone Project Group, we are dedicated to fostering transparent communication and meaningful consultation throughout all stages of our projects. Our commitment extends to our clients, employees, subcontractors, suppliers, and the broader community. We recognise that effective communication and consultation are vital for successful project outcomes, client satisfaction, and the overall reputation of our company.

Our Strategies

Keystone Project Group works collaboratively with key stakeholders, including our clients, regulators, industry peers, suppliers & contractors, to exceed our communication and consultation obligations through the following key strategies:

- **Client-Centric Approach:** We prioritise understanding our clients' needs, preferences, and objectives. Our communication strategies are tailored to ensure clarity, responsiveness, and proactive engagement with our clients.
- **Open Dialogue:** We maintain open lines of communication with subcontractors to facilitate discussions on project design, construction techniques, safety protocols, quality standards, and any other relevant topics. Regular communication via weekly meetings ensures that subcontractors are well-informed and aligned with project objectives.
- **Accessibility:** We maintain accessible communication channels to facilitate easy interaction with our team. Whether through in-person meetings, phone calls, emails, or digital platforms, we ensure stakeholders can reach us conveniently.
- **Collaborative Decision-Making:** We engage in collaborative decision-making processes, involving relevant stakeholders in discussions related to project planning, design, execution, and post-project evaluation.
- **Performance Evaluation and Feedback:** We evaluate subcontractor performance based on agreed-upon metrics and provide constructive feedback as needed. This collaborative approach encourages accountability and drives performance improvement.
